## Education and Qualifications

2011	PhD	University of Melbourne
2011	Masters of Organisational / Industrial Psychology	University of Melbourne
2015	Graduate Certificate of Higher Education	Deakin University
2007	Bachelor of Laws	Monash University
2000	Bachelor of Arts (1st Class Honours in Psychology)	University of Melbourne

## Employment History

2020–	Senior Lecturer	School of Psychology, Deakin University
2012–2019	Lecturer	School of Psychology, Deakin University
2012	Post Doc	Melbourne Business School, University of Melbourne
2009–2011	Lecturer	Psychological Sciences, University of Melbourne
2008	Associate Lecturer	Psychological Sciences, University of Melbourne
2001–2007	Tutor, RA, Lecturer	University of Melbourne
2001–2010	Industry Consultant	Extensive consulting work (see below for details)

## Research

### Research Overview

My program of research is focused on individual differences, human performance, and well-being. Major threads of research include: (a) the dynamics of performance and well-being, (b) the structure of self- and other-report measures of personality and performance and the role of social desirability, (c) mapping studies examining the relationship between personality and other psychological constructs, and (d) applications of psychometric assessment to employee selection, including issues related to job applicant faking, predictive validity, and performance assessment. I have particular methodological expertise in psychometrics, latent variable analysis, longitudinal modelling, meta-analysis, big data, programming in R, and reproducible analysis.

Citations based on Google Scholar: >3,200 citations, h-index of 28.

## Published Peer Reviewed Journal Articles

First-author supervised students underlined. I have generally followed the convention of being second author (rather than last-author) when mentoring or supervising.
